

Join Joe Security to Deeply Analyze Cyber Threats!

Joe Security LLC is a Swiss company and the world's leader for automated malware analysis systems. We develop and support Joe Sandbox - one of the most advanced malware analysis systems for Windows, Linux, Android, iOS and macOS operating systems. Joe Sandbox is actively being used by CERTs, CIRTs, AVs and firewall vendors around the world.

We are looking for a motivated **PHP web developer**. We are located in Reinach, Switzerland, near the city of Basel with good access by public transportation and car.

PHP Web Developer 80%-100% (m/f/x)

Job Responsibilities:

You will be responsible to develop new features for our PHP-based web applications. Other tasks include fixing bugs and working on security improvements. You'll also be responsible for improving existing and writing new unit and integration tests.

Job Requirements:

- Work experience in web development using PHP, Javascript and CSS
- Python skills are a plus
- Interest in IT security
- Ability to work independently as well as in a team
- Fluent in spoken and written English

Why join Joe Security?

- Become part of an innovative team of engineers and malware specialists
- Have the chance to work creatively and make a great product even better
- Work with cutting edge IT security products used by industry leaders
- Spacious offices in an excellent work environment
- Flexible working hours and possibility to work from home part-time
- Competitive salary and bonuses
- Profitable and internationally well positioned IT business
- Free drinks and gym reimbursement
- Employee training programs

Interested? We would be happy to invite you for an interview. Please send your job application to career@joesecurity.org.
