

Join Joe Security to Deeply Analyze Cyber Threats!

Joe Security LLC is a fast-growing Swiss company specialized in the development of automated malware analysis systems. We develop and support Joe Sandbox - one of the most advanced malware analysis systems for Windows, Linux, Android and macOS. Joe Sandbox is actively being used by many CERTs, CIRTs and SOCs around the world.

We are looking for a motivated Security Engineer with a high interest in defensive security. Together with our VP of Security (CISO), you will be running the security program at our company.

Security Engineer 60-100% (m/f/d)

Job Responsibilities

- Help run our ISMS based on ISO 27001
- Design, implement, and monitor security measures (SIEM, IDS, etc.)
- Conduct security trainings with our employees and run phishing tests
- Conduct risk assessments
- Investigate anomalies and incidents

Depending on your interests and your working hours, your tasks might also contain:

- Improving the source code of our product in regards to security.
- Security reviews of our architecture and secure code reviews.

Job Requirements

- BS in computer science or equivalent
- Demonstrable knowledge about security architecture.
- Keen interest in IT security
- Ability to work independently as well as in a team
- Fluent in spoken and written English

Bonuses

- Familiarity with key cybersecurity technologies and tools such as sandboxing, firewalls, IDS/IPS, EDR/XDR, SIEM, SOAR.
- Familiarity with a variety of programming languages.

Why join Joe Security?

- Profitable and internationally well positioned
- Become part of a cool team of engineers and malware specialists
- Flexible working hours
- Competitive salary and bonuses
- Free drinks and gym reimbursement
- Employee training programs
- Possibility to work partially from home

Interested? We would be happy to invite you for an interview. Please send your job application to career@joesecurity.org.
